Children First "Let the little children come to me..."

EXODUS® SERENDIPITY MANAGER™

In Control of your Unknown Risks and get Serendipity at the same time + Chance on a Quantum Leap

The problem of the **Unknown Unknowns** is solved in 2015 onwards!

Things that...

you know

Risks

you know that you don't know

Blue Swans (Serendipity) and Black Swans (Unserendipity) are everywhere

you don't know that you don't know

Things that:

You Know
-> 5%

You know that you don't know
-> 15%

You don't know that you don't know
-> 80%

Management Tools Development:

- 1-Network planning tools from 1945 onwards
- 2-Risk Management Tools from 1990 onwards

3-Exodus® Serendipity Manager™ from 2015 onwards

In control of unknown risks, get serendipity + chance on Quantum Leap on the project

The costs of Project Failure on society is billions each year. Exodus® Serendipity Manager™ will end this tragedy.

Project Phases

We all know the risks that we know. We don't make a list of it. The risks that we don't know.

A little bit theory:

The Blue Swan theory

Murphy's or **Alfred's**

Luck is on the side of the efficient!

Disasters **Black Swans**

Project failure **Accidents** **Stress**

WORLD WITH 3000 TRADE PORTS

Alert **Blue Swans**

Co-operation **6-sense**

Success

DIRECT YOUR LUCK IN 3 STEPS (IN ORDER TO BECOME EFFICIENT)

- 1 Two goals: one goal aimed at the world (your work) and one goal just for you (your dream).
- 2 Be that person who always says yes.
- 3 Reach your goals at the expense of nothing.

Benchmarking and searching for opportunities with the Region & Project Dashboard (Barter Bank)

Plan: Afghanistan as trade center between Europe and Asia by 1st of January of 2018. Sure we can !!

World Trade Port gives trade impulse to isolated country

The gate to Afghanistan is opened

About efficiency:

- 1 Analyze the past, do not judge it. Otherwise you destroy your own pyramid
- 2 Do not compare. Choose what you like and go for it.
- 3 Do not use 1 search engine, do not read 1 paper etc.
- 4 Do not go for the cheapest, but choose at random
- 5 Do not be a fan of someone, some club.

Why? It is to avoid Data Discrimination. Data must be free to help you to get your presents from the Unknown Unknowns!!

The diagram is titled "Barter Bank" in large yellow letters on a blue background. It features a central green square containing a circular image of "Oil Minerals". Eight red double-headed arrows radiate from this central hub to eight surrounding images, each representing a different sector:

- Infra**: A highway with cars.
- Tourism**: A yellow box with the word "Tourism".
- Houses**: A row of small houses.
- Electricity**: A high-voltage power line tower.
- City**: A 3D model of a city.
- Anything**: A blue box with the text "Anything In, on or above the ground".
- Food**: A plate of food.
- IT**: A globe surrounded by computer icons.

Additionally, there are red double-headed arrows connecting the outer sectors to each other, forming a network. For example, "Infra" is connected to "Food", "Food" to "IT", "IT" to "Anything", "Anything" to "City", "City" to "Electricity", "Electricity" to "Houses", "Houses" to "Tourism", and "Tourism" back to "Infra".
