THE FUTURIST

"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration."

Nikola Tesla (1856-1943)

Nikola Tesla, the Wizard of Westinghouse who gave the world all his inventions and his view of the future is gone. At his time the world was not ready for his view. He also said that our brain is just a receiver for all (ah!) knowledge which is always available (under Blue Swan Efficiency conditions)

"I am the greatest! I said it even before I knew I was."

Muhammad Ali

Yes Muhammad Ali, you are the Greatest of All(ah!) 😊

Verpleeghuizen verspillen miljard per jaar

HILVERSUM - Verpleeghuizen verspillen jaarlijks een miljard euro aan onder meer te hoge energierekeningen. In de dure inkoop van goederen en onnodig papierwerk. Dat bleek donderdag uit onderzoek van het televisieprogramma Tijd voor Meldpunt! van omroep Max.

De hoge energierekeningen zijn te danken aan gebouwen die slecht zijn geïsoleerd en verouderde installaties hebben, stelt Harmke Bekkema van innovatieprogramma Energiesprong. Volgens het onderzoek geven verpleeghuizen vaak ook veel geld uit aan onnodige medicatie en overbodige overhead. Daarnaast wordt de helft van de warme maaltijden aan het einde van de dag weggegooid. Volgens Nouds Keij van Stichting Diverso voor duurzaam eten en drinken, worden er dagelijks tienduizenden maaltijden weggegooid, omdat er te veel wordt gekookt, de porties veel te groot zijn en het eten smakeloos is.

Max-directeur Jan Slagter heeft zich voorgenomen een eigen verpleeghuis te openen. Hij voert daarvoor concrete gesprekken met diverse locaties. "Ik wil bewijzen dat het met het beschikbare geld wel degelijk mogelijk is goede verpleeghuiszorg te bieden", aldus Slagter. Het verpleeghuis zou volgend jaar de deuren moeten openen.

De overheid besteedt jaarlijks 5,3 miljard euro aan verpleeghuiszorg.

We all know the risks that we know. We don't make a list of it. The risks that we don't know, we don't know will be provoked by EXODUS®

The Blue Swan theory

Murphy's or Alfred's

Luck is on the side of the efficient!

Alert Blue Swans

Disasters Black Swans World with good trade ports

Project failure Accidents Stress Success

Co-operation 6-sense

DIRECT YOUR LUCK IN 3 STEPS (IN ORDER TO BECOME EFFICIENT):

- Two goals: one goal aimed at the world (your work) and one goal just for you (your dream).
- Be that person who always says yes.
- Reach your goals at the expense of nothing.

Deals And Proposals:

To Who:	Subject	Date
Rijkswaterstaat	Deal of 1 million euro's about Nijverdal Tunnel	June-2013
Shell	Proposal for Nigeria-50m Euro's-Nigeria allright	Dec-2014

Min of Justice and Mayors of Rotterdam, The Hague, Amihem, Delft, all papers	Proposal for escaping the danger of an assault in the Netherlands of people who think differently (for free !!)	Feb-2015

3 The Serendipity Diary

Event Number	Date of Event	Cause of Serendipity	Serendipity that happened	Milestone Challenge !!!
S1	14-Feb-15		Economy is going up/peace in Ukran	1-Jan-18
S2	19-Feb-15		Pakistan officials say Afghan Taliban signal readiness for peace talks	

About efficiency:

- Analyze the past, do not judge it. Otherwise you destroy your own pyramid
- Do not compare. Choose what you like and go for it.
- Do not use 1 search engine, do not read 1 paper etc.
- Do not go for the cheapest, but choose at random
- Do not be a fan of someone, some club.

Why? It is to avoid Data Discrimination. Data must be free to help you to get your presents from the Unknown Unknowns!!
